

## BRIEFING CONTRACTORS ON COVID-19 PRECAUTIONS

	<p>Access to the Kozloduy NPP site shall be provided to <b>all visitors</b> upon presenting a filled in <a href="#">Declaration</a>, and submitting it to the Security Division</p>
	<p>Access to the Kozloduy NPP site shall be allowed to:</p> <ul style="list-style-type: none"><li>- <b>Foreigners</b> only if a document by an accredited laboratory verifying a negative result of a PCR test performed up to 72 hours before arrival in the country has been submitted to the plant Security Division;</li><li>- <b>External organisations' representatives to be involved in the maintenance activities in the course of Unit 6 outage and having no permanent workplace at the plant site</b> only upon submitting a document by an accredited laboratory verifying a negative result of a PCR test performed up to 72 hours before starting work.</li></ul>
	<p>It is obligatory for the personnel working at the Kozloduy NPP site to come to work only in good health. Should any symptoms arise indicating even a slight change in your health status during working time, immediately call the plant Occupational Health Service at ☎ <b>21 21</b>.</p>
	<p>Protective half face masks shall be used on the site of Kozloduy NPP:</p> <ul style="list-style-type: none"><li>- Indoors, with more than one person in the premise/office;</li><li>- Outdoors, when workers are positioned within less than 1.5 meters from one another;</li><li>- When working in the controlled area, in addition to the protective equipment required for operation in ionizing radiation environment;</li><li>- When using elevators, going along corridors, overhead bridges and staircases;</li><li>- Going in/out through the plant main gates.</li></ul>
	<p>Use of elevators and communication inside them shall be limited.</p>

	<p>The plant access control procedure includes monitoring of body temperature upon entry. When entering buildings with thermal body cameras installed, stop at the places marked with a red dot, and if wearing glasses and/or a hat (hard hat), take them off and look at the respective thermal imaging camera for one second.</p>
	<p>When passing through the metal detectors of the main gates, do not leave any metal objects in the object boxes; instead, hold them above the shoulders in a way that allows the police officers to see them.</p>
	<p>It is obligatory to disinfect the workplaces at least once every three hours, as well as upon arrival at the workplace.</p>
	<p>It is obligatory to wash and disinfect your hands after each entry into work offices/premises/common facilities (toilets, canteens, smoking areas, elevators).</p>
	<p>It is necessary to ventilate regularly the work premises every hour for 10 minutes.</p>
	<p>It is mandatory to observe social distancing (at least 1.5 meters distance from each other) during work, shift turnover, or smoking.</p>
	<ul style="list-style-type: none"> <li>- Eating and drinking shall take place only in the designated places.</li> <li>- Sit alone at a table when having meals at the plant canteen.</li> </ul>

***In case of non-compliance with, and/or violation of the established rules, the contractors' staff access to the plant site shall be terminated.***
